

Course	<b>Effective LCA with 'SimaPro'</b>
Start & End time	10:00 AM to 5:00 PM
Venue	Microsoft 'teams': Internet based virtual classroom Code & password for the training will be emailed one week before the date of training.
Course Objective	LCA training is dedicated to understanding LCA and performing LCA's with SimaPro. You learn the concepts and applications of LCA, data collection, impact assessment and interpretation of LCA results. Every participant will do LCA modelling on SimaPro as hands on training exercise. Developer version of SimaPro will be provided to every participant for a month to facilitate their learning after the workshop. <ul style="list-style-type: none"><li>✚ Concepts and application of LCA<ul style="list-style-type: none"><li>✚ How to build up Inventories</li><li>✚ Structure of SimaPro</li><li>✚ Modelling a life cycle in SimaPro</li><li>✚ Impact assessment</li><li>✚ Analysing and interpreting results</li></ul></li></ul>
Who should attend	<ul style="list-style-type: none"><li>✚ Decision Makers of an Organisation</li><li>✚ Process &amp; Production Heads / Managers / Engineers</li><li>✚ R&amp;D Heads / Engineers</li><li>✚ EHS Heads / Engineers</li><li>✚ NGO</li></ul>
