

SimaPro Faculty license

SimaPro Faculty is a basic version of SimaPro for education. It comes as a single-user version (only one person can access a database or project at a time), but it can be installed on all Windows computers of your department's students and staff. Visit simapro.com to compare different licenses.

Benefits

Features

Quick results

SimaPro Faculty was created to produce reliable results with limited effort. Powerful software wizards assist you in creating your LCAs, while all results remain completely transparent. SimaPro Faculty has the functionality needed to create basic LCA models, without compromising on the details.

Includes data and methods

SimaPro Faculty has all you need to get started right away. It includes a variety of methods and databases. With SimaPro Faculty, you can define how your life cycle assessment results are presented: per process, per product stage or per function.

On different devices

SimaPro Faculty is a stand-alone version that can be installed on the PCs of all your students and staff. It comes with a temporary license that will expire after one year and is the only version of SimaPro that can be installed as many times as you need.

Experience the full potential of SimaPro

SimaPro Faculty is available as a one-year license. The license includes various databases including an ecoinvent v3 database license. If you wish to purchase a SimaPro Faculty license without ecoinvent database, please contact us for a quote.

Benefits

Features
